

Total number of players 431 -*

AoIG rating: $Ar = (1 + Mr) * Pr$, where **Mr** - (money) and **Pr** (pride/placement) portion of the rating.

Note! If Player had played less than 3(three) tournaments, then **Pr** will be decreased by 50% for only one tournament, by 25% for only two. Only 10 best **Pr** (10 tournaments) results will be taken into account.

Academy rating will be calculated based on a calendar year, with exception of 2005-06 season (since system was first introduced on November 01, 2005. The year 2006 rating will be calculated based on 14 months period). The **Mr** portion could only go UP; **Pr** portion calculated as an average of **Pr** of each tournament, player had participated in, and can go up and down depending on players performance.

-* Number of players who had participated in AoIG Prize Money Tournaments are higher than 431, since club level games with less than \$100 PMP are NOT included in AoIG rating calculation.

AoIG Combine rating
 Place ment (as April 30, 2006) Eve Prev.B
